### ***Information Disclosure Statement***

2. The examiner has considered the information disclosure statement (IDS) submitted on 5/10/05.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Ayano et al. (6,377,479).

Ayano et al. disclose a power conversion system in Figs. 1, 4, 8, 12 and 13. A common mode choke (3) connected between alternating current output terminals of the power converter (2) and input terminals of the alternating current circuit (5) and connecting means (7) that connects an outgoing line from a neutral point (6) of the alternating current circuit to a reference potential point having little potential variation at a power source system side of the power converter, resistors (92) and capacitors (91).
